

ETiBORO

EtiBoro is a Bi-monthly Publication of Etimine USA -- Latin America Division

Vol I; February 2016

A Message from the President

Dr. Gokhan Yazici PhD – CEO and President

I recently had the opportunity to visit Colombia - a beautiful and dynamic country- and meet with some of our valued customers – I was very pleased to hear firsthand from our clients on how well our product is perceived in Latin America. It is my intention to visit more countries in this important region for us to learn more on how we can best serve our customers' needs. At Etimine USA we are committed to enhancing this business relationship and towards that goal we have strengthened and reinforced our sales and customer support teams. (cont. Pg 2)

Healthy Oil Palm Fruit

Grown with EtiMaden Boron

ASK DR. ARUN

Technical Questions From Our Customers

Question: Can you explain what is Etigran?

Answer: Etigran;
Sodium Tetraborate Pentahydrate
 $\text{Na}_2\text{B}_4\text{O}_7 \cdot 5 \text{H}_2\text{O}$.

The newest Etimine USA product developed specifically for the Agricultural Industry. It's a slow release granular product. Due to its granulometry; It has proven to be an outstanding product to deliver the boron micro-nutrient for the Agro market

Dr. Arun Chattopadhyay, PhD – Technical Director for Etimine USA is a recognized authority on borate chemistry

A Message from the President

(cont. from Pg 1)

To better serve our customers. We recently appointed Hector de la Cerda Sales Manager for Latin America & Caribbean. Hector is a highly-regarded professional that speaks the major languages of the Americas, and has ample experience in satisfying customer needs in all regions of Latin America.

EtiMaden, is a global business concern headquartered in Ankara, Turkey and the top producer and distributor of Borate products. EtiMaden currently has 70% of the known Boron reserves in the world and is a major force in advancing human development: providing the world with Borate products that help to grow and advance important, significant industries in all continents; including the agro industry worldwide.
